Re: ST-89. Proposed Revisions to the *Statutes*

Dear Colleagues,

The attached document has been received from UIUC after being approved by their Senate and is being sent to you for your advice by the University Senates Conference. This document includes a set of changes previously sent to your Senate as ST-88, in addition to a second round of revision to the same section. Instead of dealing with them separately, we have compiled all of the changes into one new proposal called ST-89. You can remove ST-88 from your consideration. Please share this with your Senate and provide any feedback by November 3, 2023.

USC requests that the review of ST-83 be completed prior to addressing any new ST revisions.

Sincerely,

Sandra De Groot, Chair
University Senates Conference
